

Cut back on irrigation with your **Acers/ Maples** early in the fall to achieve the best and brightest fall colors.

Name	Description	Details	Photo
<i>Acer x freemanii</i> 'Jeffensred' <b>'Autumn Blaze' Maple</b>	Excellent orange-red fall color that persists longer than many cultivars. Rapid, upright growth habit. Tolerates a wide range of soil conditions but prefers a protected, dry spot.	H 35-40' W 30' Zone 3	
<i>Acer x freemanii</i> 'Sienna' <b>Sienna Glen® Maple</b>	Upright, vigorous, pyramidal growth habit. Fall colors are orange red to burgundy and finalizing to a burnt orange. Color changes earlier than similar varieties. Branching is compact, tree weathers high winds exceptionally well. Tolerant of higher pH soils than similar varieties.	H 40-50' W 30' Zone 3	
<i>Acer platanoides</i> <b>'Helena' Maple</b>	A Norway maple found in Helena and noted for hardiness. Selected for outstanding habits and vigor. Fast growing. Oval shape. Handsome gold fall color. It needs good drainage. Wrap the trunk in winter especially when the tree is young.	H 45-55' W 25-30' Zone 4	
<i>Acer tataricum</i> <b>'Hot Wings'</b> Tatarian maple available in shrub form too	Small tree with clusters of yellow-white flowers in spring. The "wings" turn bright red for several weeks in summer followed by beautiful orange-red fall color. A good tree for dry, alkaline soil. Xeriscape plant.	H 18-20' W 15-18' Zone 3

<i>Aesculus x arnoldiana</i> <b>'Autumn Splendor'</b> <b>Buckeye</b>	Smaller, dense, rounded buckeye with unusual bright orange-red fall foliage. Large spikes of creamy yellow bloom in late spring. Scorch resistant. Tolerant of drought once established. Prefers moist, well-drained soil.	H 25'-30' W 20'-25' Zone 3	
<i>Betula platyphylla</i> <b>Parkland Pillar™ – First Editions® Birch</b>	A fast growing, very cold hardy, columnar tree well suited to the prairie & urban landscape. Tolerant of heat, drought, and alkaline soils. Forms a narrow column of dense dark green foliage that turns golden yellow in the fall, revealing its white bark during the winter months. An excellent accent or screen tree.	H 20-25' W 6' Zone 3	Photo Credit: JF Schmidt 
<i>Betula pendula</i> <b>'Dalecarlica'</b> <b>Cut Leaf Weeping Birch</b>	A large, graceful tree with long weeping branches and delicate leaves. Noted for its beautiful white bark at an early age. An extremely hardy tree. Requires deep watering.	H 30'-40' W 20' Zone 2

<i>Crataegus crus-galli inermis</i> <b>'Crusader' or 'Cruzam'</b> <b>Thornless Cockspur Hawthorn</b>	Abundant white floral display in late spring, attractive silver bark, colorful fall foliage, and showy holly-like fruit. It shrugs off wet and dry soils, is not fussy about pH levels, is unbothered by clay or salt, and is disease resistant. Showy fruit that supports wildlife. Easy care, less worry about disease or insect damage.	H 15' W 12-15' Zone 3	 Photo Credit: Proven Winners
<i>Crataegus laevigata</i> <b>'Paul's Scarlet Hawthorn'</b>	Small, low-branching, deciduous tree with a dense, rounded crown and glossy dark green leaves. In mid to late spring, it has double rose-red flowers held in clusters along the branches followed by vivid red fruits in fall.	H 18-25' W 15-20' Zone 4	 Photo Credit: Gardenia
<i>Gleditsia triacanthos</i> var. <i>inermis</i> <b>'Northern Acclaim' Honey Locust</b>	Upright and pyramidal habit. Great winter hardiness. Attractive, bright green foliage turns golden in the fall. Seedless.	H 30-40' W 20-30' Zone 3	
<i>Juglans nigra</i> <b>Black Walnut</b>	Attractive, large, hardy, oval habit. A heritage tree. Grows rapidly when young but slows down with age. It has edible nuts, and the leaves are green throughout the season.	H 40-50' W 25-30' Zone 3	 Photo Credit Baileys Nursery

<i>Malus</i> <b>Courageous Crab</b>	Year-round interest and disease resistance. In spring, it is covered in pink buds that transform into fragrant pink flowers. The new leaves exhibit a maroon appearance before changing to green then yellow-orange foliage in the fall, adding another layer of interest to this upright tree. With little to no fruit production.	H 20-25' W 15-20' Zone 2	Photo Credit Baileys Nursery 
<i>Malus</i> <b>Gladiator Crab</b>	An excellent ornamental tree with a profusion of bright pink flowers followed by small reddish-purple fruit on a stately, upright crown. Glossy bronze-purple leaves remain lush all season long and are highly disease resistant. Full Sun.	H 20' W 9' Zone 2	Photo Credit Baileys Nursery 
<i>Malus</i> 'Klehem's Bechtel' <b>Flowering Crab</b>	Fragrant, large, pink double blossoms with soft green foliage. Blooms later than most flowering crabs. Vase-shaped form with little to no fruit.	H 20-25' W 15-20' Zone 3	
<i>Malus</i> 'Ruby Tears' <b>Flowering Crab</b>	Red buds open to fragrant pink flowers which completely engulf the cascading branches each spring. This naturally weeping crab has burgundy-green foliage and attractive dark red fruit lasts until mid-winter.	H 8-10' W 12-15' Zone 4	Photo Credit Baileys Nursery

Name	Description	Details	Photo
<i>Malus</i> 'Spring Snow' <b>Flowering Crab</b>	Fragrant pink buds open to showy white blossoms. Fruitless variety, no mess of falling apples. Bright green foliage and tolerant of heat. Gold in the fall.	H 18-20' W 15-20' Zone 4	
<i>Malus</i> 'Thunderchild' <b>Flowering Crab</b>	This hardy, compact, upright crabapple tree has deep purple leaves with delicate pink flowers. Resistant to fire blight. Dark red-purple non-falling pea-sized fruits adorn the tree into winter.	H 15-20' W 15' Zone 3	
<i>Populus</i> 'Highland' <b>Poplar</b>	A fast growing, deciduous shade tree with a dense, pyramidal crown. Yellow fall color. Full sun. Cottonless and disease resistant.	H 40' W 15-20' Zone 3	
<i>Populus tremuloides</i> <b>Summer Shimmer Aspen</b>  <b>'Dancing Flame' Aspen</b>	Shimmering large, dark glossy green leaves that turn shades of yellow each fall. Summer Shimmer® suckers dramatically less than other quaking aspen, making it a better choice for smaller landscapes as a specimen or in groves.	H 30-35' W 15-20' Zone 3

<i>Quercus macrocarpa</i> <b>'Kindred Spirit' Columnar Oak</b>	Fast growing oak with glossy leaves that turn a stunning red orange in the fall. This outstanding columnar oak has a tight, upright habit which makes it perfect for small, urban spaces. Highly resistant to powdery mildew and urban pollution.	H 35' W 6' Zone 4	Photo Credit McKay Nursery 
<i>Salix alba</i> 'Vitellina' <b>Golden Willow</b>	Bright, golden yellow bark, especially noticeable in winter. Glossy green leaves and broad, pyramidal shape. Best used as a screen and in large landscapes. Hardy and fast growing.	H 50' W 25-30' Zone 2	
<i>Salix 'Prairie Cascade'</i> <b>Prairie Cascade Willow</b>	Selected by the Morden Research station in Manitoba for cold hardiness. It combines a weeping habit, golden stems, and dark green glossy foliage	H 30' W 40' Zone 3	
<i>Salix pentandra</i> 'Silver Lake' <b>Prairie Reflection Laurel Willow</b>	Grows rapidly, producing a dense rounded tree with very dark green, highly glossy foliage. Does not tend to suffer from chlorosis due to iron deficiency. Will require pruning to produce a single stemmed tree.	H 35-40' W 25' Zone 2	Photo Credit Tagawa Gardens
