<p><i>Clematis</i> <b>'Viva Polonia'</b> PP27753</p>	<p>Large, 4" across, magenta flowers with inner white star. Old growth wood borne flowers in early summer and then appear on new wood later in the season. Likes sun, but not when overly heated and partial sun. Does best in moist, well-drained soils.</p>	<p>H 4-6' W 3-5' Zone 4</p>	 <p><small>Photo courtesy of Proven Winners - www.provenwinners.com</small></p>
<p><i>Humulus lupulus</i> <b>'Nugget' Hops</b></p>	<p>Fast growing, ideal for a tall trellis or screen. Fragrant yellow-green conelike flowers can be harvested in late summer to fall for use in brewing beer. Grows in full to partial sun and well-drained soil.</p>	<p>H 15-30' W 10-20' Zone 2</p>	
<p><i>Humulus lupulus</i> <b>'Willamette' Hops</b></p>	<p>One of the best hops for pale ales, brown ales or UK-style ales. Also used in teas for insomnia. The vines and fragrant flowers make a sensational statement in any landscape, whether you use the hops to make beer or not. Grow on a fence, wall or trellis for support.</p>	<p>H 10-20' W Varies Zone 3</p>	
<p><i>Lonicera x brownie</i> <b>'Dropmore Scarlet' Honeysuckle</b></p>	<p>Long-blooming season (June-Sept.) of showy, tubular flower clusters backed by attractive blue-green foliage. Handsome, dense vine for fences or arbors, or even as a groundcover. Long-lasting red berries follow the blooms. Deciduous.</p>	<p>H 8-10' W 3-5' Zone 3</p>	
<p><i>Parthenocissus quinquefolia</i> var. <i>engelmannii</i> <b>'Engelman Ivy' (syn 'Virginia Creeper')</b></p>	<p>Fast-growing vine that climbs or trails along the ground. The leaves are compound, containing five leaflets. Leaflets range from 2 to 6 inches in diameter and have toothed margins. Leaflets are red when they first emerge but turn green with maturity. In the fall, leaves turn a bright red to maroon color. Possible production of small berries during early summer.</p>	<p>H Varies W Varies Zone 3</p>
