Name	Description	Details	Photo
<p><i>Acer x freemanii</i> 'Jeffensred' <b>'Autumn Blaze' Maple</b></p>	<p>Excellent orange-red fall color that persists longer than many cultivars. Rapid, upright growth habit. Tolerates a wide range of soil conditions.</p>	<p>H 40' W 40' Zone 3</p>	
<p><i>Acer x freemanii</i> 'Sienna' <b>Sienna Glen® Maple</b></p>	<p>Upright, vigorous, pyramidal growth habit. Fall colors are orange red to burgundy and finalizing to a burnt orange. Color changes earlier than similar varieties. Branching is compact, tree weathers high winds exceptionally well. Plant in full sun. Tolerant of higher pH soils than similar varieties.</p>	<p>H 40-50' W 35-40' Zone 3</p>	
<p><i>Acer ginnala</i> <b>Ruby Slippers Maple</b></p>	<p>Selected for a straight trunk, dense canopy, and bright red samaras in early summer. It shows good nursery, a brilliant fiery red fall color. A very hardy, small, graceful tree. Xeriscape plant.</p>	<p>H 20' W 20' Zone 2</p>	<p>Photo Credit: JF Schmidt</p> 
<p><i>Acer platanoides</i> <b>'Helena' Maple</b></p>	<p>A Norway maple found in Helena and noted for hardiness. Selected for outstanding habit and vigor. Fast growing. Oval shape. Handsome gold fall color. Needs good drainage. Wrap the trunk in winter especially when the tree is young.</p>	<p>H 45-55' W 25-35' Zone 4</p>

Name	Description	Details	Photo
<p><i>Acer tataricum</i>  <b>'Hot Wings'</b>                      Tatarian maple available in shrub form too</p>	<p>Small tree with clusters of yellow-white flowers in spring. The "wings" turn bright red for several weeks in summer followed by beautiful orange-red fall color. A good tree for dry, alkaline soil. Xeriscape plant.</p>	<p>H 18-20'                      W 15-18'                      Zone 3</p>	
<p><i>Aesculus x arnoldiana</i>  <b>'Autumn Splendor'</b>  <b>Buckeye</b></p>	<p>Smaller, dense, rounded buckeye with unusual bright red fall foliage. Large spikes of creamy yellow-red bloom in late spring. Scorch resistant. Drought tolerant once established. Prefers moist, well-drained soil.</p>	<p>H 25'-30'                      W 20'-25'                      Zone 3</p>	
<p><i>Betula pendula</i>  <b>'Dalecarlica'</b>  <b>Cut leaf Weeping Birch</b></p>	<p>A large, graceful tree with long weeping branches and delicate leaves. Noted for its beautiful white bark at an early age. An extremely hardy tree.</p>	<p>H 30'-40'                      W 20'                      Zone 2</p>

Name	Description	Details	Photo
<p><i>Betula papyrifera</i> <b>Paper Birch</b></p>	<p>In cooler climates, this is the most permanent and desirable of all white barked Birches. Slow to turn white, but a perfect chalk-white when older. Beautiful as a single stem tree or clump form.</p>	<p>H 50' W 35' Zone 3</p>	<p>Photo Credit: JF Schmidt</p> 
<p><i>Betula papyrifera</i> 'Varen' <b>Prairie Dream® Paper Birch</b></p>	<p>Exceptional snow-white exfoliating bark, with quality, dark green foliage, and excellent golden-yellow autumn foliage. Superior adaptation and stress tolerance. Resistant to bronze birch borer. Excellent grown single or multi-trunked. Adds great winter interest.</p>	<p>H 40'-50' W 30'-40' Zone 2</p>	
<p><i>Betula populifolia</i> 'Whitespire' <b>Birch (Clump Form)</b></p>	<p>Non-exfoliating chalk-white bark. Green foliage turns yellow in the fall. Plant in full sun to partial shade. Adapts to most soil conditions. Does best in moist, well-drained soil. Resistant to bronze birch borer.</p>	<p>H 30-40' W 15-25' Zone 3</p>

Name	Description	Details	Photo
<p><i>Betula platyphylla</i> 'Fargo' <b>Dakota Pinnacle White Birch</b></p>	<p>Developed at North Dakota State University, this tree selected for its narrow, columnar habit. Tolerant of heat and alkaline soils.</p>	<p>H 20-25' W 8-10' Zone 3</p>	<p>Photo Credit: JF Schmidt</p> 
<p><i>Betula platyphylla</i> <b>Parkland Pillar™ – First Editions® Birch</b></p>	<p>A fast growing very cold hardy tree well suited to the prairie &amp; urban landscape. Tolerant of heat, drought, and alkaline soils. Forms a narrow column of dense dark green foliage that turns golden yellow in the fall, revealing its white bark during the winter months. An excellent accent or screen tree.</p>	<p>H 20-25' W 8-10' Zone 3</p>	<p>Photo Credit: JF Schmidt</p> 
<p><i>Celtis occidentalis</i> <b>Hackberry</b></p>	<p>This moderate to rapid grower thrives in the toughest climates. It has great adaptability to heat, drought, and cold. Wet or poor soils.</p>	<p>H 35-40' W 20-25' Zone 2</p>	
<p><i>Crataegus crus-galli</i> <i>var. inermis</i> <b>Thornless Cockspur Hawthorn</b></p>	<p>A beautiful small tree with all-season interest. Deep green glossy leathery leaves. Pretty white flowers in spring, followed by abundant red holly-like berries persist through Christmas. Orange fall color, silvery bark, and striking silhouette in winter.</p>	<p>H 15-20' W 15-20' Zone 4</p>
