

Name	Description	Details	Photo
<p><i>Actinidia arguta</i> 'Issai' Hardy Kiwi</p>	<p>A fuzz-less kiwi that is exceptionally sweet! Thrives in well-drained soil. This rapid grower requires a sturdy support system. Ripens in late August. Self-pollinating. Prefers a sheltered site.</p>	<p>H 8-12' W 8-12' Zone 5</p>	
<p><i>Actinidia arguta prolific</i> Prolific Hardy Kiwi</p>	<p>Exceptionally sweet fizz-less, grape-sized Kiwi. Thrives in well-drained soil. This rapid grower requires a sturdy support system. Ripens in late August. Self-pollinating. Prefers a sheltered site.</p>	<p>H 8-12' W 8-12' Zone 4</p>	
<p><i>Amelanchier alnifolia</i> 'Smokey Saskatoon' Serviceberry</p>	<p>Produces an abundance of half-inch-diameter purple fruits that are very sweet and juicy. Ripens in early summer. Can be eaten off the bush.</p>	<p>H 8-10' W 12-15' Zone 2</p>	
<p><i>Fragaria x ananassa</i> 'Albion' Everbearing Strawberry</p>	<p>Produces a bright red strawberry bursting with flavor due to a high sugar content. Firm texture and superior flavor. High yielding and tolerant of heat and humidity.</p>	<p>H 12" W 12-24" Zone 4</p>	

Name	Description	Details	Photo
<p><i>Fragaria x ananassa</i> 'Fort Laramie' Everbearing Strawberry</p>	<p>Large, bright scarlet-red berries with a sweet aroma and delicious taste. Produces many runners that make this variety ideal for ground planting. Bears fruit in early summer. Does best in full sun with well-drained soil.</p>	<p>H 6-10" W 3' Zone 4</p>	
<p><i>Fragaria x ananassa</i> Ozark Beauty Everbearing Strawberry</p>	<p>Produces large, delicious berries with sugary taste and juicy texture. Grows best in full sun with well-drained soil. Blooms with white blossoms May to August.</p>	<p>H 8-10" W 8-12" Zone 4</p>	
<p><i>Juglans nigra</i> Black Walnut</p>	<p>Grows best in a sunny, open location with moist, rich soil. Grows rapidly when young but slows down with age. Has edible nuts, and leaves are green throughout the season.</p>	<p>H 60-70' W 50-70' Zone 4</p>	
<p><i>Lonicera caerulea kamchatica</i> Aurora Haskap Berry or Honeyberry</p>	<p>Sweeter and more productive than other honeyberries, with a slightly larger fruit. Can be eaten fresh or used in baking or in jams and jellies. A good pollinator.</p>	<p>H 3-4' W 3-4' Zone 3</p>	
<p><i>Lonicera caerulea</i> Boreal Beast Haskap Berry or Honeyberry</p>	<p>Very productive flavorful medium-sized berries with excellent taste. Ripens in mid-summer. Pollinator for Aurora, Boreal Beauty, and Boreal Blizzard. Full or partial sun. Helena substitute for blueberries.</p>	<p>H 4-5' W 40-48" Zone 2</p>	

Name	Description	Details	Photo
<p><i>Lonicera caerulea</i> Boreal Beauty Haskap Berry or Honeyberry</p>	<p>Very productive flavorful, large berries and strong branches. Pollinator for Aurora and Boreal Blizzard. Full or partial sun. Helena substitute for blueberries.</p>	<p>H 4-5' W 40-48" Zone 2</p>	
<p><i>Lonicera caerulea</i> Honey Bee Haskap Berry or Honeyberry</p>	<p>Dark blue cylindrical fruit in spring. Ripens in early summer. For use in juice, wine or jelly. Slightly tart. Pollinator for Borealis, Tundra or Indigo. Full sun. Helena substitute for blueberries.</p>	<p>H 4-5' W 4-5' Zone 2</p>	
<p><i>Malus</i> Kerr Apple Crab</p>	<p>Showy clusters of lightly fragrant white flowers with pink overtones emerge in mid spring. Fruits are showy purple and come in abundance in mid fall. Excellent for making jams, jellies and the best apple juice or cider ever.</p>	<p>H 25' W 25' Zone 2</p>	
<p><i>Malus</i> 'Haralred' Apple Tree</p>	<p>Red selection of Haralson apple. Extremely hardy, juicy, firm, tart, and stores well. Ripens in early October. Needs pollinator.</p>	<p>H 12-15' W 14' Zone 3</p>	
<p><i>Malus</i> 'Honeycrisp' Apple Tree</p>	<p>Pinkish-white flowers provide a showy spring display. Later produces large, red fruit with exceptional flavor and crispness. Great for fresh eating, cooking, or pressing for cider.</p>	<p>H 20-25' W 10-15' Zone 4</p>	

Name	Description	Details	Photo
<p><i>Malus</i> 'Prairie Magic' Apple Tree</p>	<p>Stands out because of its exceptional cold hardiness. The flesh is crisp, white, and sweet. Delicious eaten fresh. Needs another mid-season blooming apple for pollination.</p>	<p>H 25-30' W 12-15' Zone 3</p>	
<p><i>Malus wildung</i> 'Snowsweet' Apple Tree</p>	<p>A red apple with a delightfully sweet taste and slight tart balance. The snowy white flesh is very slow to turn brown after cutting. Blooms and fruits mid to late season.</p>	<p>H 15' W 15' Zone 4</p>	
<p><i>Prunus cerasus x P. fruticosa</i> Carmine Jewel Cherry</p>	<p>Produces loads of wine-colored cherries in August. Fruits have a small pit and are excellent for fresh eating, pies, or preserves.</p>	<p>H 5-6' W 5-6' Zone 2</p>	
<p><i>Prunus cerasus x P. fruticosa</i> Juliet Cherry</p>	<p>Notably lower acidity and high sweetness make this one of the best cherries for eating fresh. Fruits have large pits. Very cold hardy.</p>	<p>H 5-6' W 5-6' Zone 2</p>	

Name	Description	Details	Photo
<p><i>Prunus</i> 'Sungold' Apricot Tree</p>	<p>Produces medium-sized apricots that are brightly colored gold with attractive orange blush. Produces best when planted with a Moongold apricot.</p>	<p>H 10-15' W 8-12' Zone 4</p>	
<p><i>Prunus</i> 'Contender' Peach Tree</p>	<p>This tree produces freestone peaches with bright yellow flesh that turns a reddish hue. This tree is very cold-hardy and tolerant of spring frosts. Sweet, extra juicy fruit is outstanding for baking, canning, freezing, and eating fresh. The Contender peach is a self-pollinating tree that blooms in early May and ripens in mid to late August. Prefers a sheltered site.</p>	<p>H 12-15' W 15-18' Zone 4</p>	
<p><i>Prunus americana</i> 'American' Plum</p>	<p>Spreading branches, broad crown, fragrant showy large white flowers with bright red fruit in August or September. Fall foliage ranges from electric red to pale yellow. Plums are great eaten fresh or used in jellies and preserves.</p>	<p>H 12-20' W 12-20' Zone 4</p>	
<p><i>Prunus</i> 'Mount Royal' Plum Tree</p>	<p>European plum that tastes great when eaten right off the tree. Tender and juicy fruit. Ripens in mid-August. Self-fertilizing, no pollinator tree needed.</p>	<p>H 8-12' W 6-10' Zone 4</p>	

Name	Description	Details	Photo
<p><i>Prunus</i> 'Superior' Plum Tree</p>	<p>One of the best plums available on the market today. Dark red fruit is sweet and juicy. Ideal for eating fresh, or in jams or jellies. Ripens late August. Recommend Toka plum for pollination.</p>	<p>H 15-20' W 15-20' Zone 4</p>	
<p><i>Prunus</i> 'Toka' Plum Tree</p>	<p>One of the best pollinator plums. The fruit has a reddish-bronze skin with richly flavored, apricot-colored flesh. Produces heavy crops that ripen late August into September.</p>	<p>H 10-13' W 10-12' Zone 3</p>	
<p><i>Prunus</i> 'Waneta' Plum Tree</p>	<p>One of the best American plums. Fruit is large, reddish, sweet, juicy and of good quality. Ripens in August. Needs a pollinator.</p>	<p>H 10-15' W 10-15' Zone 3</p>	
<p><i>Prunus x kerrasis</i> 'Juliet' Cherry</p>	<p>Notably lower acidity and high sweetness make this one of the best cherries for eating fresh. Fruits have large pits. Harvest in late summer. Very cold hardy.</p>	<p>H 5-6' W 5-6' Zone 2</p>	

Name	Description	Details	Photo
<p><i>Pyrus 'luscious'</i> Luscious Pear</p>	<p>Juicy, sweet, medium bright yellow fruit. Blooms early May. Tree globe shape. Glossy green foliage, red fall color. Excellent dessert pear. Pollen sterile. Full sun.</p>	<p>H 15-20' W 8-12' Zone 4</p>	
<p><i>Pyrus parker</i> 'Parker' Pear Tree</p>	<p>This upright tree produces large, yellow fruit with a red blush. It is very productive and vigorous. It will need a mid- to late-season pollinator.</p>	<p>H 15' W 15' Zone 4</p>	
<p><i>Pyrus</i> 'Summercrisp' Pear Tree</p>	<p>This pear tree is an annual bearer. The fruit itself is a pyramidal form shape that is about 3 inches in diameter and 3.5 inches long. Blooms appear in early May, and the fruit should be harvested in mid-August. Use Parker or Patten for pollinator.</p>	<p>H 12-15' W 8-12' Zone 3</p>	
<p><i>Rheum rhabarbarum</i> 'Crimson Red' Rhubarb</p>	<p>Large green foliage atop deep crimson-red stalks. Agreeably tart and great for pies or preserves.</p>	<p>H 24-48" W 24" Zone 3</p>	
<p><i>Rheum</i> 'Victoria' Rhubarb</p>	<p>A high yielding variety with thick green stalks, reddish towards the base, and huge leaves. Stalks can be used in making tart pies and sauces. Grow in full sun, low to average watering needs.</p>	<p>H 2-3' W 3' Zone 3</p>	

Name	Description	Details	Photo
<p><i>Rubus idaeus</i> Boyne Raspberry</p>	<p>An attractive, red raspberry with a delicious, sweet flavor. Very productive and hardy, producing juicy berries in early July.</p>	<p>H 3-4' W 3-4' Zone 3</p>	
<p><i>Rubus idaeus</i> Fall Gold Raspberry</p>	<p>A rare and exciting raspberry with the same delicious taste as red varieties. Produces a second crop after a late summer to fall harvest. Magnificent gold berries.</p>	<p>H 4' W 3' Zone 3</p>	
<p><i>Rubus idaeus</i> Souris Raspberry</p>	<p>Souris is an improved red, summer-bearing raspberry that ripens in July. This self-pollinating plant is sweeter than the Boyne raspberry and produces more fruits. Also, this shrub is better at spider-mite resistance overall.</p>	<p>H3-4' W 3-4' Zone 3</p>	
<p><i>Sambucus</i> York Elderberry</p>	<p>Largest berries of all elderberries. Juicy, sweet, purplish black berries. Good for jam, jelly, pie and wine. Hardy, vigorous, highly productive bush. Large, creamy white flowers in early summer and nice fall foliage.</p>	<p>H 6-8' Zone 4</p>	
<p><i>Vitis hybrida</i> 'Edelweiss' Hybrid Grape</p>	<p>Produces medium-sized fruit that is sweet and pleasantly flavored. Green-white color with high sugar content. Perfect for eating fresh or making white wine.</p>	<p>H 10-15' W 3-4' Zone 4</p>	

Name	Description	Details	Photo
<p><i>Vitis hybrida</i> 'Frontenac Gris' Hybrid Grape</p>	<p>The "white wine" version of Frontenac grapes, grey fruits are produced in abundance and provide apricot, peach, and tropical fruit aromas, great for making dry and sweet wines. Vines are quite vigorous and exceptionally disease resistant. Self-pollinating.</p>	<p>H 6-12' W 3-6' Zone 4</p>	
<p><i>Vitis hybrida</i> 'Kay Gray' Hybrid Grape</p>	<p>This hardy white grape is perfect for eating directly off the vine or for wine production. This vine produces medium to large berries in small clusters.</p>	<p>H 10-30' W 2-3' Zone 4</p>	
<p><i>Vitis</i> 'Reliance' Seedless Fox Grape</p>	<p>Cold-hardy, vigorous seedless red grape variety. Fruits reach maturity early in the season and are firm, juicy, and sweet. Self-pollinates and resistant to most pests and diseases. Needs to climb so provide structures for it to grow onto. Plant in full sun and well-drained soils.</p>	<p>H 15-20' W 15-20' Zone 4</p>	
<p><i>Vitis hybrida</i> 'Somerset' Seedless Hybrid Grape</p>	<p>This seedless table or juice grape has a superb flavor. It bears tight clusters with small, deep-red berries. Earliest edible berries are produced in the pink stage, which usually occurs in August. However, if plucked at full red, these delicious fruits are sweeter and more flavorful.</p>	<p>H 4-6' W 1-2' Zone 4</p>	

Name	Description	Details	Photo
<p><i>Vitis labrusca hybrida</i> 'Valiant' Hybrid Fox Grape</p>	<p>A very hardy grape vine with dark purple fruit. Green leaves turn golden yellow in fall. Fruits are excellent for jams, jellies and excellent juice or wine.</p>	<p>H 20' W 2' Zone 2</p>
