| <b><i>Aquilegia</i><br/>'Early Bird Red &amp; White'<br/>Columbine</b>               | Rose red flowers with white centers. Especially lovely when allowed to naturalize in shady, wooded borders. Excellent potential as cut flowers, lasting up to 2 weeks in a vase. Sun to partial shade. Prefers rich well-drained soil.                                    | H 24"<br>W 24"<br>Zone 4       | <br>Photo Credit: Walters Gardens       |
| <b><i>Aquilegia</i><br/>'Early Bird Purple &amp; White'<br/>Columbine</b>            | Bred for vibrant colors, neatly mounded habit, programmable flowering, and unusual combinations. Requires less vernalization than other columbines. Sun to partial shade. Prefers rich well-drained soil.   | H 11"<br>W 16'<br>Zone 3       | <br>Photo Credit: Emerald Coast Growers |
| <b><i>Aquilegia</i><br/>KIRIGAMI™<br/>Deep Blue &amp; White<br/>Columbine</b>        | Thin, green upright stems support upward-facing flowers of dark indigo blue and white shades. Blooms from late spring to early summer. Suitable for containers. Attract butterflies, hummingbirds, and pollinators. Sun to partial shade. Prefers rich well-drained soil. | H 22-24"<br>W 16-20"<br>Zone 4 | <br>Credit: Walters Gardens, Inc        |
| <b><i>Aquilegia</i><br/>KIRIGAMI™<br/>Rose &amp; Pink<br/>Columbine</b>              | Thin, green upright stems support upward-facing dark - rose to light pink flowers. Blooms from late spring to early summer. Suitable for containers. Attract butterflies, hummingbirds, and pollinators. Sun to partial shade   | H 22-24"<br>W 16-20"<br>Zone 4 | <br>Credit: Walters Gardens, Inc       |
| <b><i>Arctostaphylos uva-ursi</i><br/>'Massachusetts'<br/>Kinnikinnick/Bearberry</b> | Very cold-hardy groundcover. Clusters of 2-inch, bell-shaped, pink flowers grow off spreading foliage. Red berries follow the blooms that last into winter. In the fall, foliage changes to a red-gold tint. Needs partial to full sun. Prefers rich well-drained soil.   | H 12"<br>W 10-15"<br>Zone 2    |                                       |

| <b><i>Baptisia</i><br/>'Plum Rosy'<br/>False Indigo</b>              | A beautifully elegant bicolor Baptisia that bursts onto the scene in late spring to early summer. Newest flowers open mauve pink and lighten to near white with age. Both flower colors are present on the stem for a beautiful bicolor effect. Full sun to part shade. Prefers light sandy soil.              | H 3 1/2-4'<br>W 3 1/2-4'<br>Zone 4 |  <p>Photo Credit: Walters Gardens, Inc.</p> |
| <b><i>Baptisia</i><br/>'Royal Purple'<br/>False Indigo</b>           | Dark violet purple blooms saturated with color. Dramatic flower spikes with appealing visual display. Full sun to part shade. Prefers light sandy soil.  | H 3-4'<br>W 3-4'<br>Zone 4         |   |
| <b><i>Baptisia</i><br/>'TWILITE PRAIRIE BLUES™'<br/>False Indigo</b> | Deep purple buds open to smokey violet flowers with lemon yellow keels. Long-lasting flowers appear on upright spikes from late spring to early summer. Full sun to part shade. Prefers light sandy soil.  | H 42-60"<br>W 4-5'<br>Zone 4       |    |
| <b><i>Bergenia cordifolia</i><br/>'Sakura'</b>                       | Pink, semi-double flowers float above a mound of compact, glossy foliage that turns plum purple in winter. This hardy evergreen lends itself to mass plantings, containers, and border fronts with extremely little maintenance. Deer resistant. Full sun to part shade. Prefers average to well-drained soil. | H 12-16"<br>W 12"<br>Zone 4        |   |

| Name  | Description   | Details                                | Photo   |
|---|---|--|---|
| <i>Bergenia cordifolia</i><br><b>'Spring Fling'</b>                                   | A large, tight, upright plant with magenta-pink flowers that bloom heavily. Foliage turns gorgeous, satiny purple black in the fall and winter. Deer resistant. Full sun to part shade. Perfers average to well-drained soil.                                 | H 12"<br>W 12"<br>Zone 4               |    |
| <i>Brunnera macrophylla</i><br><b>'Jack of Diamond'</b><br><b>False Forget-Me-Not</b> | This shade perennial is a giant version of the classic 'Jack Frost' - with a twist. The huge 9-10" leaves have a heavy silver overlay with vivid wide, dark green veining pattern. Blue flower is spring. Consistent moist soil is preferred. Deer resistant. | H 14.0-16.0"<br>W 28.0-32.0"<br>Zone 3 |    |
| <i>Ceratistium tomentosum</i><br><b>'Yoyo'</b><br><b>Snow in Summer</b>               | Flowering is profuse, with blooms that are silvery white, and star shaped. Showy, silver, gray-green foliage creates an attractive ground cover. Does well in poor soil but needs full sun. Blooms late spring to early summer.                               | H 4-6"<br>W 12-15"<br>Zone 3           |  |
| <i>Chelone lyonii</i><br><b>'Hot Lips'</b><br><b>Turtlehead</b>                       | Shiny green leaves topped with pink turtle-shaped flowers in late summer and early fall. Adaptable to most types of soil that stay medium moist or wet. Attracts bees, butterflies, and hummingbirds. Deer resistant. Full sun to part shade.                 | H 10-12"<br>W 12-18"<br>Zone 3         |  |

| <i>Wisteria macrostachya</i><br>‘Blue Moon’ | Blooms in early summer, rests and starts again, sometimes blooms even a third time. No pruning required. Blooms best in full sun. A sheltered site preferred. | H Varies<br>W Varies<br>Zone 4 |  |

**Roses**

Plant Roses in a good compost-topsoil mix. Water in.

For grafted roses, make sure the graft is AT LEAST 2-4" below soil level. For shrub roses, also PLANT 2-4" DEEPER than they are in the pot. Roses enjoy morning watering, which helps control powdery mildew. Fertilize on a weekly basis; stop in August.

| <i>Malus</i><br><b>'Prairie Magic' Apple</b>      | Stands out because of its exceptional cold hardiness and size of fruit. The flesh is crisp, white, and sweet. Delicious eaten fresh. Needs another mid-season blooming apple for pollination.                                | H 25-30'<br>W 12-15'<br>Zone 3 |     |
| <i>Malus</i><br><b>'State Fair' Apple</b>         | Medium-sized red striped fruit. The flavor is sprightly tart and good for eating and baking. Good texture, semi-acid to sweet. All-purpose apple. One of the better early apples for northern locations. Short storage life. | H 20'<br>W 20'<br>Zone 3       |    |
| <i>Malus</i><br><b>'Yellow Transparent' Apple</b> | The skin is clear yellow, and the flesh is white. A very productive tree. Best used for cooking. Heavy producer. Pick before maturity for better storage life. Scab resistant.   | H 12-15'<br>W 12-15'<br>Zone 3 |  |
| <i>Malus</i><br><b>'Zestar' Apple</b>             | An early apple that is crisp and juicy! Best known for its excellent sweet tart flavor, it has a much longer storage life than other early apples. Excellent for fresh eating and cooking. Ripens in late August.            | H 12-15'<br>W 12-15'<br>Zone 3 |   |

| <i>Rubus idaeus</i><br><b>Souris Raspberry</b>                     | Souris is an improved red, summer-bearing raspberry that ripens in July. This self-pollinating plant is sweeter than the Boyne raspberry and produces more fruits. Also, this shrub is better at spider-mite resistance overall. | H 3-4'<br>W 3-4'<br>Zone 3   |    |
| <i>Sambucus</i><br><b>York Elderberry</b>                          | Largest berries of all elderberries. Juicy, sweet, purplish black berries. Good for jam, jelly, pie, and wine. Hardy, vigorous, highly productive bush. Large, creamy white flowers in early summer and nice fall foliage.       | H 6-8'<br>W 6-8'<br>Zone 4   |    |
| <i>Vitis hybrida</i><br><b>'Kay Gray' Hybrid Grape</b>             | This hardy white grape is perfect for eating directly off the vine or for wine production. This vine produces medium to large berries in small clusters.   | H 10-30'<br>W 2-3'<br>Zone 4 |   |
| <i>Vitis labrusca hybrida</i><br><b>'Valiant' Hybrid Fox Grape</b> | A very hardy grape vine with dark purple fruit. Green leaves turn golden yellow in fall. Fruits are excellent for jams, jellies and juice or wine.   | H 20'<br>W 2'<br>Zone 2      |  |

## Planting Trees and Shrubs

### General Instructions

Make the hole twice as wide as the pot or root ball. Make the hole sufficiently deep to allow a 3-4" deep watering basin. Carefully set the plant in the hole, keeping the soil intact around the roots. The root system is the plant's lifeline so manage with care. Do not bury too deep. Make sure the graft on any grafted plant is 1" above the soil line, except for roses. **Add water** and fill your hole with topsoil. Saturate the plant during and after planting, **leaving no air pockets**. Fill hole 3-4 times to adequately soak the roots. **Thorough watering is critical currently**. Place mulch in the basin or over the entire bed for the purpose of retaining water, retarding weeds, and providing insulation.

Water and fertilizer are the secret to making plants grow. Apply only at the recommended rates and times. Do not over fertilize. Please check your newly planted plant daily. Water at least every other day for the first two weeks and when temperatures are extremely hot. Then water two or three times a week or as needed. Clay soils will not require as much water. A finger test works well to check the moisture level, or we have an inexpensive moisture meter available in our store. Most of the young plants that die do so because of lack of water, too much water, or improper planting.

**Cut back on irrigation with your Acer/ Maples early in the fall to achieve the best and brightest fall colors.**

|--|--|----------------------------|---|
| <i>Aronia melanocarpa</i><br><b>Low Scape Mound®</b>                         | A compact, low-mounded variety with glossy, dark green leaves and showy white flowers in spring. A wonderful choice for edging, groundcover, or bank stabilizing. Brilliant red foliage in fall contrasts with the dark purple-black fruit. Grows in dry or wet soils, very adaptable. | H 1-2'<br>W 1-2'<br>Zone 2 | <br><small>Photo courtesy of Proven Winners - www.provenwinners.com</small> |
| <i>Azalea deciduous</i><br><b>'Mandarin Lights'</b>                          | Upright, rounded deciduous shrub with ruffled, lightly fragrant, bright mandarin orange flowers which bloom late season. Fall showcases bronze-colored foliage.  | H 4-5'<br>W 4-5'<br>Zone 4 | <br>Photo credit: Eshraghi Nursery LLC                                     |
| <i>Azalea deciduous</i><br><b>'Rosy Lights'</b>                              | Fragrant, deep rosy-pink blooms in late May or early June. Excellent specimen. Prune immediately after blooms finish to control size and shape. Hardy to -45 F.  | H 4-5'<br>W 4-5'<br>Zone 4 | <br>Photo credit: Bron & Sons   |
| <i>Berberis thunbergia</i><br><b>Goruzam'</b><br><b>Golden Ruby Barberry</b> | Compact shrub with colorful coral-orange foliage that lasts into autumn, then turns a brilliant mix of bright orange to brick red, accented with gold margins.   | H 2'<br>W 2'<br>Zone 4     |   |

| Name  | Description   | Details                       | Photo  |
|---|---|-------------------------------|--|
| <i>Berberis thunbergia</i><br><b>'Orange Rocket' Barberry</b> | Compact, upright, thorny deciduous shrub with orange-red new foliage that matures to green in the summer. Leaves transition to a vibrant red in the fall. Petite pale-yellow flowers show up early summer. Many small crimson-red berries appear in the fall, outlasting the foliage. Rust resistant. | H 4'<br>W 18"<br>Zone 4       |  <p>credit: Eshraghi Nursery LLC<br/>Unlicensed propagation prohibited</p>             |
| <i>Berberis</i><br><b>'Sunjoy Gold Pillar' Barberry</b>       | Gold leaves with terrific density and brilliant shades of red and orange foliage in spring. Very upright almost vertical branches.  | H 3-4'<br>W 18"<br>Zone 4     |  <p>Photo credit: Proven Winners</p>   |
| <i>Caragana arborescens</i><br><b>Caragana</b>                | Bright yellow flowers from May to June. Hardy and drought resistant. Great as a hedge. Xeriscape plant.   | H 12-15'<br>W 8-10'<br>Zone 2 |   |
| <i>Caragana frutex</i><br><b>Globe caragana</b>               | Compact. Dark green leaves with small yellow flowers. Slow grower with uniform shape and occasional yellow flowers in summer. Good as a formal hedge or small specimen. A non-suckering type.   | H 2-3'<br>W 2-3'<br>Zone 3    |    |

| Name  | Description   | Details                     | Photo   |
|---|---|-----------------------------|---|
| <i>Cornus alba</i> <i>bailhalo</i><br><b>'Ivory Halo'</b><br><b>Dogwood</b>         | Flat clusters of white flowers bloom Late Spring, followed by small white berries in fall. Medium green foliage with white edges in compact habit. Showy red twigs in winter.   | H 6-8'<br>W 6-8'<br>Zone 3  |   |
| <i>Cotinus coggygria</i><br><b>Winecraft Black®</b><br><b>Smokebush</b>             | Compact, rounded habit. Deep purple-black leaves progressively darken into summer. Large, airy, smoke-like blooms. Vibrant orange and red fall foliage. Plant in full sun.  | H 4-6'<br>W 4-6'<br>Zone 4  | <br><small>Photo courtesy of Proven Winners - www.provenwinners.com</small> |
| <i>Cotinus coggygria</i><br><b>Winecraft Gold Spirit</b><br><b>Dwarf® Smokebush</b> | The Golden Spirit Smokebush is a popular choice for gardeners looking to add vibrant color and interest to their landscape. Features bright golden-yellow leaves that retain their color throughout the growing season and fluffy, smoke-like flower clusters in summer. Requires excellent drainage and can tolerate poor, rocky, infertile soils. | H 4-5'<br>W 4-5'<br>Zone 4  | <br><small>Photo Credit: Heritage Fruit Trees</small>                      |
| <i>Cotoneaster lucidus</i><br><b>Hedge Cotoneaster</b>                              | Upright and rounding habit. Small pink flowers bloom from late spring to early summer. Small berries replace them and persist into winter. Leaves are thick, shiny, and dark green, and have orange-red color in the fall. Perfect pruning into a variety of shapes. Plant in full sun to partial shade.  | H 6-10'<br>W 6-8'<br>Zone 3 |   |

|---|--|------------------------------|---|
| <i>Daphne burkwoodii</i><br><b>'Carol Mackie' Daphne</b>                          | Small, fragrant, pink blossoms and variegated foliage. Quite easy to grow, requires cool, dry, well-drained soil. Prefers shaded north or east side.   | H 2-4'<br>W 2-4'<br>Zone 4   |   |
| <i>Euonymus alatus</i><br><b>'Compactus'</b><br><b>Dwarf Burning Bush</b>         | Compact, deciduous, spreading shrub. In autumn foliage turns brilliant scarlet red. Grows in full to partial sun and average, well-drained soils.  | H 4-6'<br>W 4-6'<br>Zone 4   | <br><small>Credit: Eshraghi Nursery LLC</small> |
| <i>Diervilla</i> 'First Editions<br><b>Cool Splash Bush</b><br><b>Honeysuckle</b> | Easily grown in average, medium moisture, well-drained soils in full sun to part shade. Tolerates some drought. Wide range of soil tolerance. Plants will spread by underground stems to form colonies but are not considered to be invasive. Prune as needed immediately after flowering. | H 4'<br>W 4'<br>Zone 4       | <br>Photo Credit: NetPS Plant Finder           |
| <i>Forsythia</i> 'Meadowlark'<br><b>Meadowlark Forsythia</b>                      | A shrub with superior flower-bud hardiness and showy, bright yellow spring flowers, its flower buds are hardy to -35°F. It will perform best in full sun.  | H 8-10'<br>W 6-10'<br>Zone 3 |   |
| <i>Hydrangea arborescens</i><br><b>'Annabelle' Hydrangea</b>                      | Covered with spectacular snowball-shaped flower clusters ranging in size from 6-12" across. Ideal for use in hedging and cut flowers. Blooms from early summer into late summer. Enjoys shade or part-shade. If in sun, provide adequate moisture.   | H 4'<br>W 4'<br>Zone 3       | <br>Photo courtesy of Baileys Nursery         |

| <i>Ilex verticillata</i> <b>Berry Heavy Winterberry Holly</b>                                     | Produces copious amounts of bright red berries that shine in the fall and winter landscape. A deciduous holly, berries are not edible for humans but are relished by birds after they've softened in mid-winter. Native to North America. Requires a male pollinator to produce berries.                                 | H 6-8'<br>W 6-8'<br>Zone 3 | Photo Credit: Proven Winners<br>   |
| <i>Ilex verticillata</i><br><b>'FARROWMRP'</b><br><b>Mr. Poppins®</b><br><b>Winterberry Holly</b> | The early blooming male companion winterberry for Berry Heavy®. Compact habit and deciduous lush green foliage. Small white flowers attract bees which pollinate nearby females. Can pollinate up to 5 female plants, needs to be within 50'. Adaptable to wet soil. Prefers wind protection and partial- sun locations. | H 3-4'<br>W 3-4'<br>Zone 3 | <small>Photo courtesy of Proven Winners - www.provenwinners.com</small><br> |
| <i>Lonicera tatarica</i><br><b>'Arnold Red' Honeysuckle</b>                                       | The darkest of red honeysuckles, with an upright, arching form and bright berries. Attracts hummingbirds and butterflies. Resistant to honeysuckle aphid. Full sun.  | H 6-8'<br>W 4-6'<br>Zone 3 |    |
| <i>Philadelphus</i><br><b>'Snow White Fantasy'</b><br><b>Mock Orange</b>                          | Repeat-flowering, 2-inch double flowers in clusters that bloom abundantly in spring and then again in summer. A versatile shrub with pure white, deliciously fragrant flowers.   | H 4-5'<br>W 4-5'<br>Zone 4 |    |

|---|--|----------------------------|--|
| <i>Physocarpus opulifolius</i><br><b>'Amber Jubilee'</b> Ninebark | Orange, yellow and gold foliage. Delicate white blooms produced in spring, and fall foliage highlighted with tones of red and purple, making this ninebark appealing over the entire season. Plant in full sun for best performance.   | H 5-7'<br>W 3-4'<br>Zone 2 | Photo courtesy of Baileys Nursery<br> |
| <i>Potentilla fruticosa</i><br><b>'Crème Brûlée'</b> Potentilla   | Long bloom time, exceptional hardiness, and low maintenance. Stands up to drought, air pollution, and salt, and tolerates a wide range of growing conditions. Plants can get sparse without 6 or more hours of sunlight. Produces bright, double white flowers that hold up well through the season and don't require deadheading. | H 3.5'<br>W 2-3'<br>Zone 2 | Photo credit: First Editions<br>       |
| <i>Potentilla fruticosa</i><br><b>'Goldfinger'</b> Potentilla     | Flowers look like big, yellow buttercups. Deep green foliage, deciduous shrub. Recommended for compact shape and showy flower display. All-summer color. Plant in full or partial sun, not fussy about soil if well-drained. Xeriscape plant.  | H 3'<br>W 3'<br>Zone 2     |                                       |
| <i>Potentilla fruticosa</i><br><b>'Gold Star'</b> Potentilla      | Tidy, dwarf, compact shrub with large, wide, deep golden blooms throughout summer. Excellent for border and mass planting. Prefers well-drained soil. Deer resistant. Xeriscape plant.   | H 2'<br>W 2'<br>Zone 2     | Photo courtesy of Iron & Sons<br>    |

|--|---|------------------------------|--|
| <i>Andropogon gerardii</i><br><b>“Blackhawks” Big Bluestem</b>       | Big Bluestem are perfect for providing height and color to the garden, coming into prime a little earlier than other ornamental grasses. The foliage of 'Blackhawks' emerges deep green to dark purple in spring and deepens to near black by fall.   | H 5'<br>W 2'<br>Zone 3       | Photo Credit: Walters Gardens Inc.<br>                                  |
| <i>Andropogon gerardii</i><br><b>“Holy Smoke” Big Bluestem</b>       | The blue-green foliage of this ornamental grass takes on overtones of pink and purple in fall. Seed heads form above the foliage and are attractive to birds and can be used in cut floral displays.  | H 5'<br>W 3'<br>Zone 4       | Photo Credit: Eshraghi Nursery LLC<br>                                 |
| <i>Calamagrostis acutiflora</i><br><b>‘Karl Forester’ Reed Grass</b> | Wheat-like seed heads with compact habit. Provides a great backdrop for flowering perennials. Useful for screening purposes and will not go to seed. Excellent choice for heavy clay soil. Plant in full sun and provide medium to wet soil. It is cool-season grass.                               | H 5'<br>W 18-30"<br>Zone 4   | Photo Credit: Eshraghi Nursery LLC<br><br>credit: Walter Gardens, Inc |
| <i>Festuca glauca</i> ‘Elijah Blue’ Grass                            | Features fine, needle-like leaves that maintain a beautiful steel blue to powdery blue color throughout the growing season. Forms dense, rounded tufts or clumps with small, light green to blue-tinged flowers in mid-summer. Full sun, well-draining soil, and drought tolerant once established. | H 6-10"<br>W 8-12"<br>Zone 4 | Photo Credit: Hello Hello Plants<br>                                  |

| Name   | Description  | Details                    | Photo   |
|--|--|----------------------------|---|
| <i>Helictotrichon sempervirens</i><br><b>'Sapphire'</b><br><b>Blue Oat Grass</b> | Dense, spiky, dome-shaped clumps of thin needle-blue-gray foliage. Semi-evergreen in cooler climates. Plant in full sun with well-drained soil, low water needs. It is a cool-season grass.  | H 2-3'<br>W 2-3'<br>Zone 4 | <br>credit: Walter Gardens, Inc.       |
| <i>Panicum virgatum</i><br><b>'Cheyenne Sky'</b><br><b>Switch Grass</b>          | By late summer, the entire clump drenched in color and is topped by matching wine-red flower panicles held just above the foliage. It makes a dynamite specimen plant and is even more eye-catching when planted in mass quantities. | H 3'<br>W 1-2'<br>Zone 4   | <br>Photo Credit: Walters Gardens Inc. |
| <i>Panicum virgatum</i><br><b>'Red Sunset'</b><br><b>Switch Grass</b>            | Has blue-green stems with wine-red leaves. In the spring the foliage is blue-green, but by early summer the leaves are already turning their red color. Full sun and tolerates drought once established.                             | H 4-5'<br>W 4-5'<br>Zone 4 | <br>Photo Credit: Plants to Grow      |
| <i>Panicum virgatum</i><br><b>'Shenandoah'</b><br><b>Switch Grass</b>            | Fast growing green leaves that emerge with red tips in spring, darken through summer, and turn a rich burgundy in fall. Airy reddish pink flowers develop in summer.   | H 4'<br>W 3'<br>Zone 4     | <br>Photo Credit: Monrovia           |

|--|---|---------------------------------|--|
| <i>Schizachyrium scoparium</i><br><b>'Smoke Signal'</b><br>Bluestem Grass        | The glaucous blue-green foliage begins to take on scarlet red tones in late summer, turning a deeper red purple through the fall. Tiny, tan seed heads appear in early fall on the top half of the stems.   | H 3-4'<br>W 1 1/2'-2'<br>Zone 3 |  <p>Photo Credit: Walters Gardens Inc.</p>  |
| <i>Sporobolus heterolepis</i><br><b>'Gone With the Wind'</b><br>Prairie Dropseed | Known for its hair-like foliage and mass planting appeal. Its short, green foliage topped by wispy, airy, and aromatic tan flower panicles. The plant, as the name suggests, gently sways with the wind, creating unique movement in the garden. Foliage takes on red overtones in late fall. | H 36-40"<br>W 20-24"<br>Zone 3  |  <p>Photo Credit: Walters Gardens Inc.</p> |
